TUTORING -

COMMUNITY

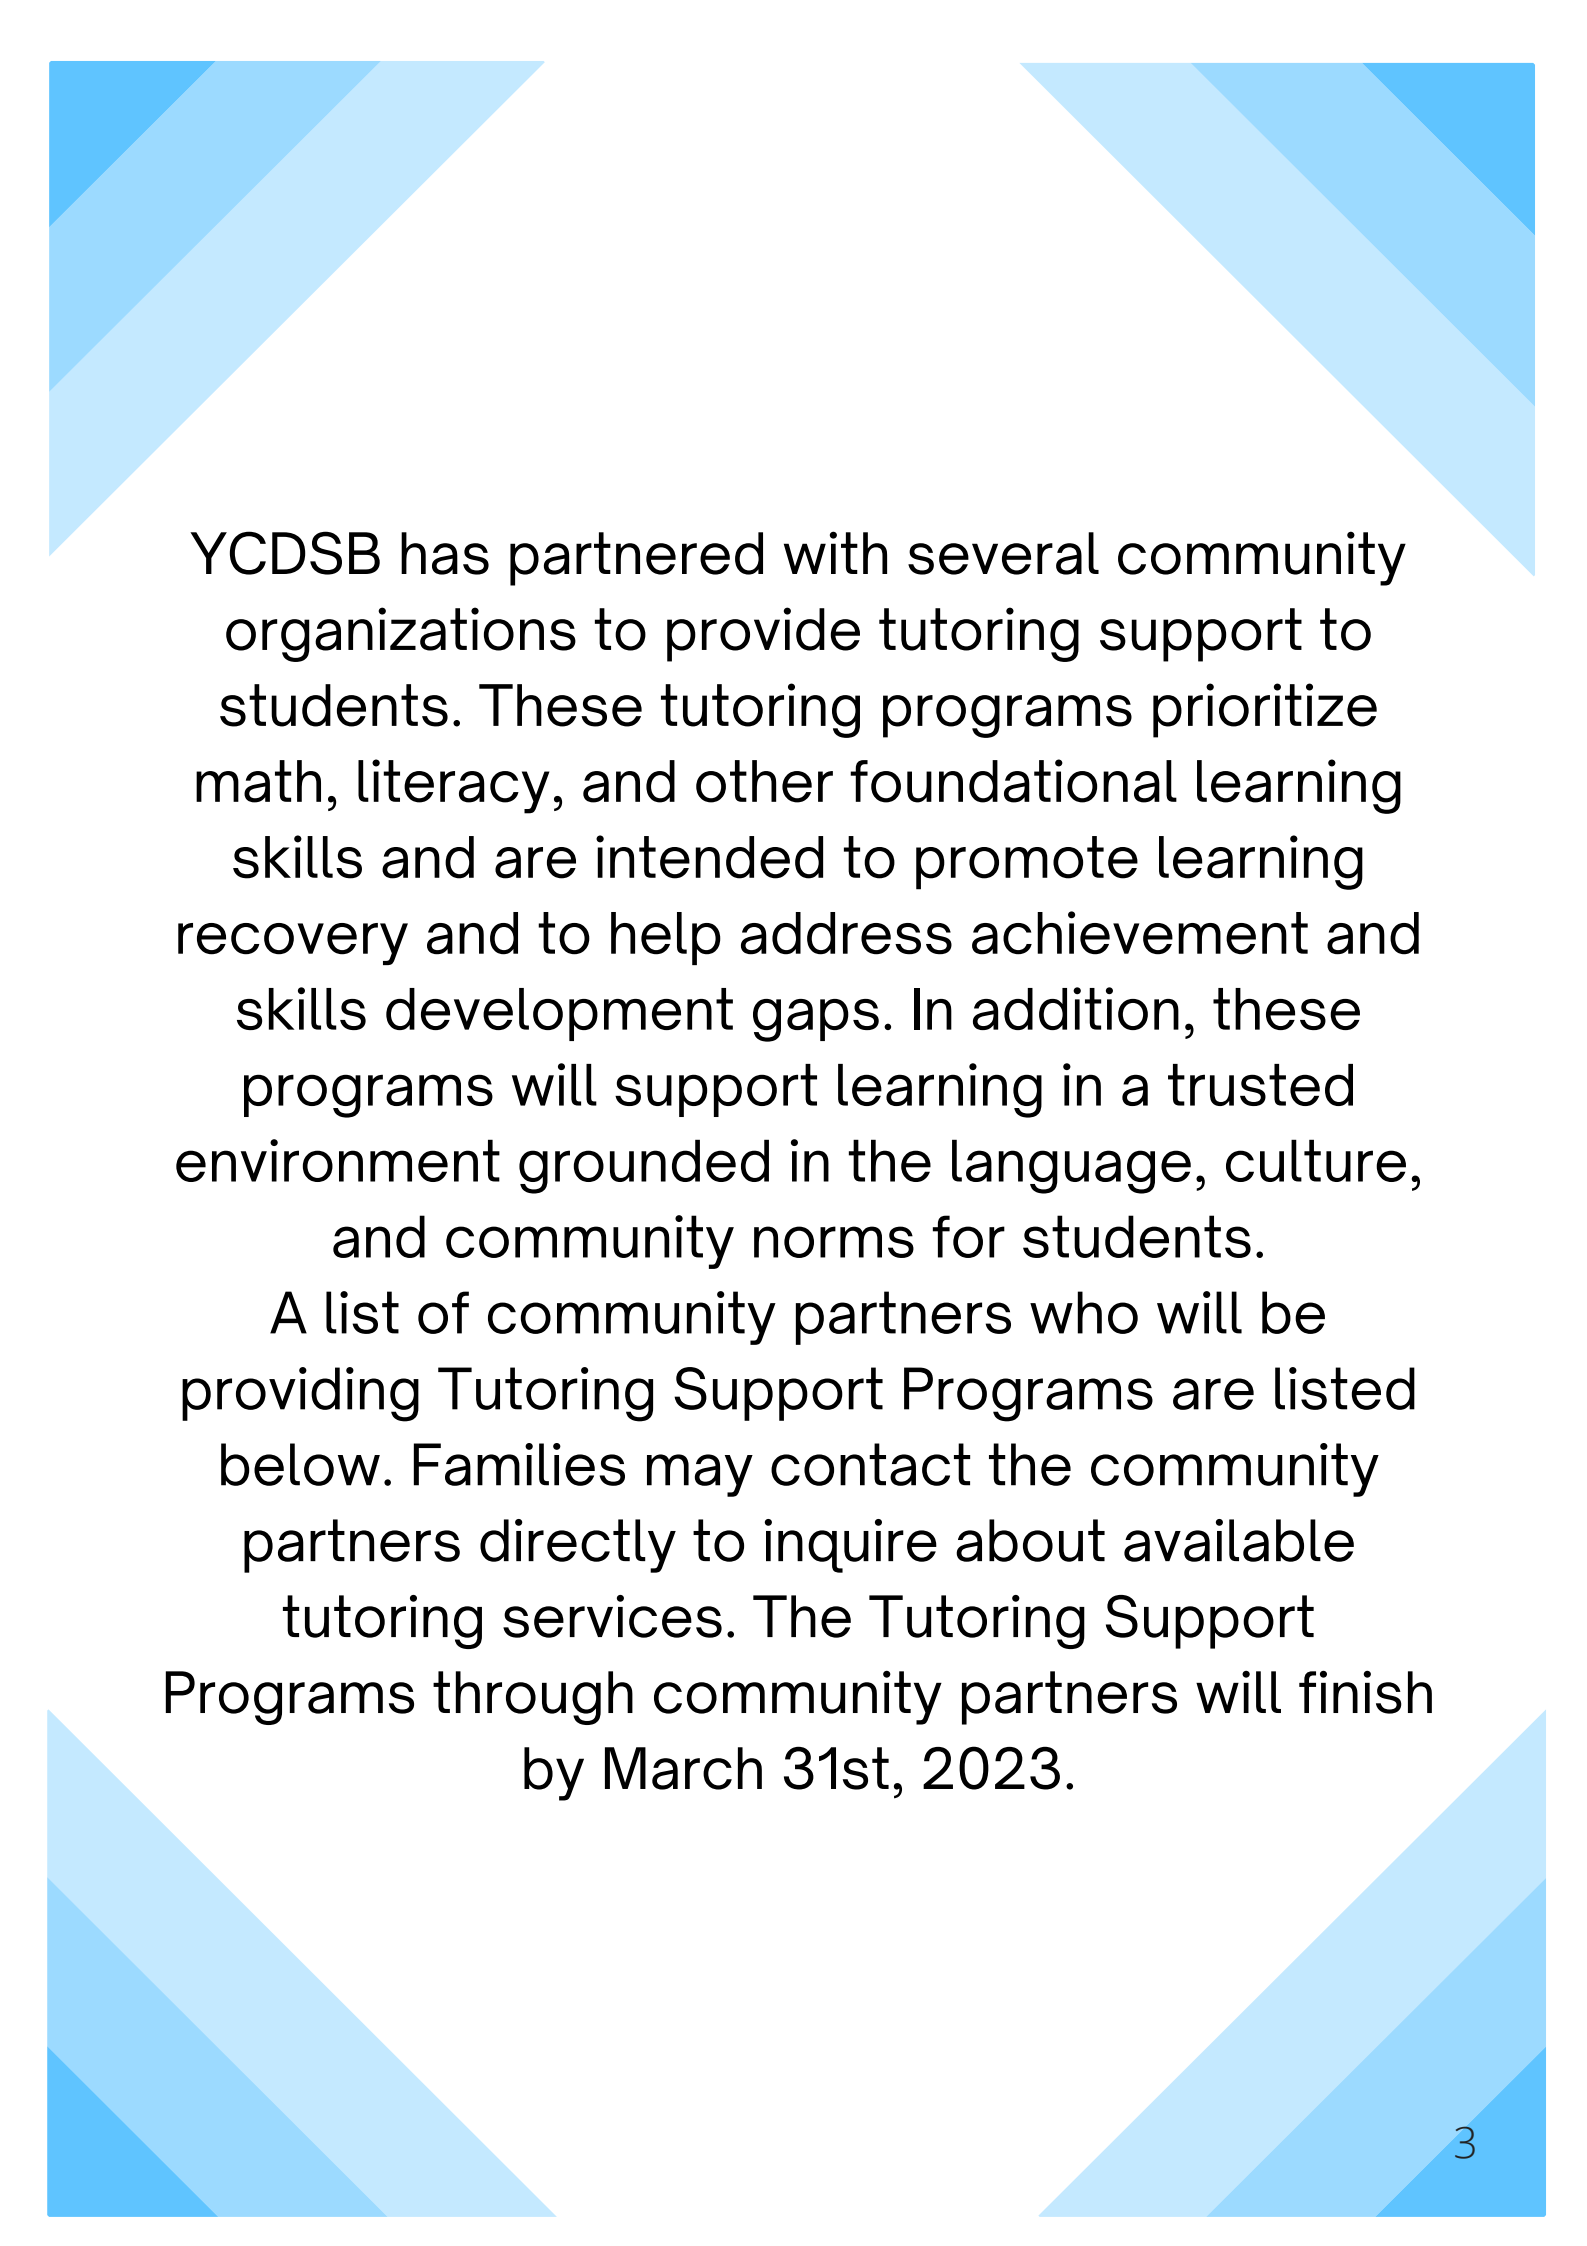

PARTNERSHIPS

ce.ycdsb.ca

@YCDSBconed

YCDSB has partnered with several community organizations to provide tutoring support to students. These tutoring programs prioritize math, literacy, and other foundational learning skills and are intended to promote learning recovery and to help address achievement and skills development gaps. In addition, these programs will support learning in a trusted environment grounded in the language, culture, and community norms for students.

A list of community partners who will be providing Tutoring Support Programs are listed below. Families may contact the community partners directly to inquire about available tutoring services. The Tutoring Support Programs through community partners will finish by March 31st, 2023.

**African-Canadian Coalition against Hate,
Oppression & Racism (ANCHOR) (formerly Vaughan
African Canadian Association)**

Description: We are committed to supporting York Region students who identify as Black, African or Caribbean by offering free tutoring for students who require additional academic tutoring outside of the regular school day. We offer in-person and virtual tutoring using a 1:1 model for students who require intensive support and small group tutoring for those who would benefit from a small group approach. We also offer French tutoring for students in French immersion in grades 1-10 and literacy and math for students in Kindergarten to grade twelve.

Target Audience: K to 12

Program begins in early January 2023

Jump Math!

JUMP Math is an individualized tutoring program for students aged 8-14 who are performing a minimum of one year behind in the area of math due to a diagnosed, identified, or suspected math disability (dyscalculia), and who are showing signs of math anxiety.

Participants work in small groups (4) with a trained numeracy tutor to build foundational math skills and computational fluency. Sessions are taught using a combination of direct instruction and engaging math games and activities. Participants are also able to set goals and visualize their progress throughout the program in order to foster math confidence.

Program will be offered virtually and/or in person. Locations to be determined based on demand.

Reading Rocks!

Reading Rocks is an individualized reading intervention program designed by Brock University's Dr. John McNamara, who specializes in Learning Disabilities. This program is designed for students aged 8-14 who are performing a minimum of one year behind in the area of literacy due to a diagnosed, identified, or suspected reading disability (dyslexia).

In addition to foundational literacy skills, Reading Rocks is an intervention approach that uses motivational tactics to engage children in the reading process. These tactics are designed to actively engage children in their own learning. The motivation tactics are engaged through the use of instructional workstations that tutors design and tailor to each child's needs.

The Reading Rocks approach is designed to be delivered in a series of 1-hour instructional sessions.

1 hour twice a week for 8 weeks.

Play Forever - Play Forever Tutor Program

Description: 1 to 1 virtual tutoring service based on individual student needs in Math, English, Science and French.

Target Audience: Ages 6-18. A majority of students come from underserved and marginalized communities, single parent families and newcomers, as we seek to provide subsidized tutoring services all year round.

Project ABRAHAM

RESETTLEMENT & SUPPORT FOR VICTIMS OF PERSECUTION

Project Abraham

Description: Up to 2 hours per week of 1:1 tutoring either online or in-person. A special focus is given to Math and English (ESL) but other subjects for which the student needs support will also be covered.

Target Audience: K -12 for newcomers and students with barriers to learning

Contact Information: Debbie Rose at debbierose@projectabraham.ca

NO STUDENT LEFT BEHIND Homework Club Tutoring Program

Project Abraham is a non-profit organization targeted to help provide services and assistance to students who have barriers to learning and/or belong to newcomer families. Our customized tutoring program is designed to help students develop and improve based on their individual needs, so that they can progress and not be left behind. We individually match, qualified tutors to students kindergarten to Grade 12 with weekly one-on-one sessions.

If you believe you know a student who could benefit from a program such as this, please pass along the link provided to parents/guardians to begin the application process.
